

Informed Consent for Blood Donation National Blood Centre, Thai Red Cross Society

- Donating blood to save life is one of the greatest donations worth to be applauded.
- Healthy person aged between 17-70 years who passed the blood donation criteria can safely donate blood.
For those of 17 years old need to have the signed consent from parent/guardian.
- 12-15% of body blood volume will be drawn for each donation. This amount of blood will not cause any harmful effect on donors. Only mild reactions may occur in some donors e.g. bruise, fatigue, nausea and vomiting.
- National Blood Centre, Thai Red Cross Society, is the national organization in procuring safe and adequate blood to meet the need of the patients in the country. Support from blood donors is much needed and greatly appreciated.
